

Briarwood Provides an Encouraging Environment with our Signature Eden Alternative® Approach

ALTERNATIVE®

quality of life for Elders and their care partners, wherever they may live.

In a culture that typically views aging as a period of decline, the **Eden Alternative®** philosophy asserts that **no matter how old we are or what challenges we live with, life is about continuing to grow.** All caregivers and care receivers are described as “care partners,” each an active participant in the balance of giving and receiving. Together, care partner teams strive to enhance well-being by eliminating the three plagues of loneliness, helplessness, and boredom.
